for Amy Ameren Missouri Public Comment on EPA Proposed Labadie Nonattainment Designation 2010 SO2 NAAQS.pdf
Ameren Labadie files and letters.xlsx

....
>>>
Amy,

You asked... "Before you just transmit.. It would help me organize my brain, if you could build a table listing all the Ameren "submissions" (letters/comment ,etc) and all the documents we received... all files.. then we'll have that for the final docket and can share with all stakeholders-- in the spirit of transparency. Once you organize all that "stuff"... we'll send that and the files Wash U wants."

And then you asked...

"Ok, so on the table with the comment letter.. doesn't include all the letters that they sent to MDNR or directly to us."

I've attached a list that contains a high level summary of the modeling files and beta requests I received and when they were submitted. Note that this summary does not have a list of the individual files... as there are 100's included in the modeling folders. I'm not sure I have any additional letters or correspondence from Ameren/MDNR to EPA not addressed in the pdf attachment. Dave do you have a better list?

I do agree we need a list of all the files/information we are relying on... for the docket.

Note the yellow highlight in the xlsx is what SC is asking for as they don't have that.
